

COLOUR BLOCK T-SHIRT

MATERIALER

- Stretch jersey fabric in different colours.

To make a smart colour block T-shirt, sweater or dress, you can use a pattern you already have. We used T-shirt pattern no. 62014 B.

1. Subdivide pattern front and back into three.

2. Place the pattern pieces over the fabric. Add 1 cm seam allowance where the fabrics meet. If you wish, you can use a sewing gauge.

3. Sew the pieces together using a stretch stitch or overlock.

4. Sew the T-shirt. Follow the pattern instructions. We sewed a label at inside neck.
