WEBBING BELT WITH D-RINGS

FREE
DIY

MATERIALS

- Webbing ribbon, 38 mm
- 2 x D-rings, strong

Hey there! Make stunning belts in ribbon and fabric to match your outfit!

1. Cut a length of webbing ribbon to the desired length. Add extra length for turnings, etc.

2. If you have nylon/polyester webbing ribbon, melt the ends to prevent fraying. If you have cotton webbing ribbon, fold and sew a 1 cm seam at the end before the next step to prevent fraying.

3. Fold one end of the ribbon 2 cm to the wrong side. Sew firmly into place.

4. Pull 2 D-rings onto the other end of the ribbon. Fold the other end of the ribbon to the wrong side. Sew firmly. If using cotton ribbon, fold and sew a further 1 cm seam before stitching to prevent fraying.

5. The belt is now ready to wear.
