# Sew it yourself: Scarf

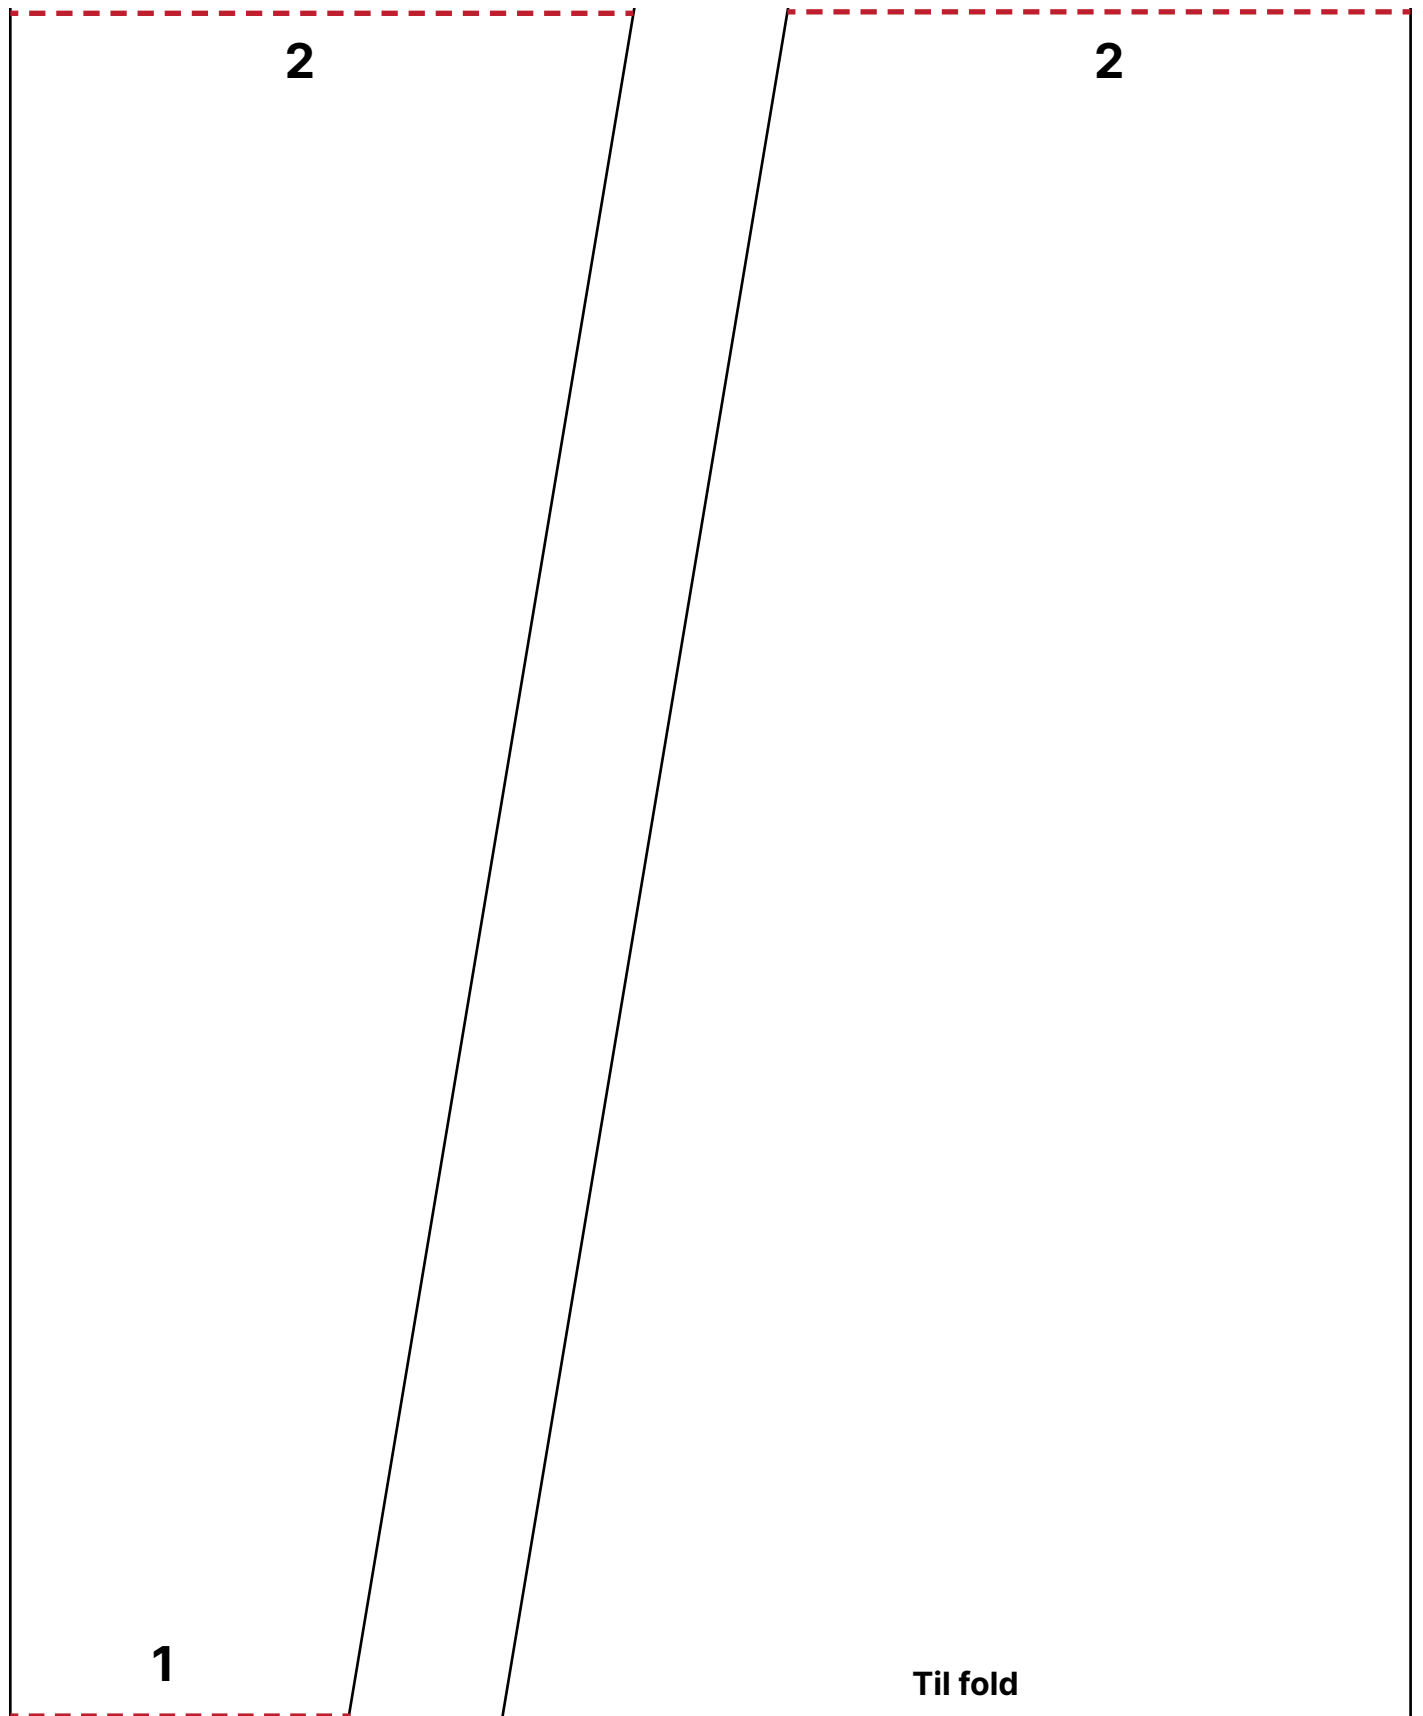

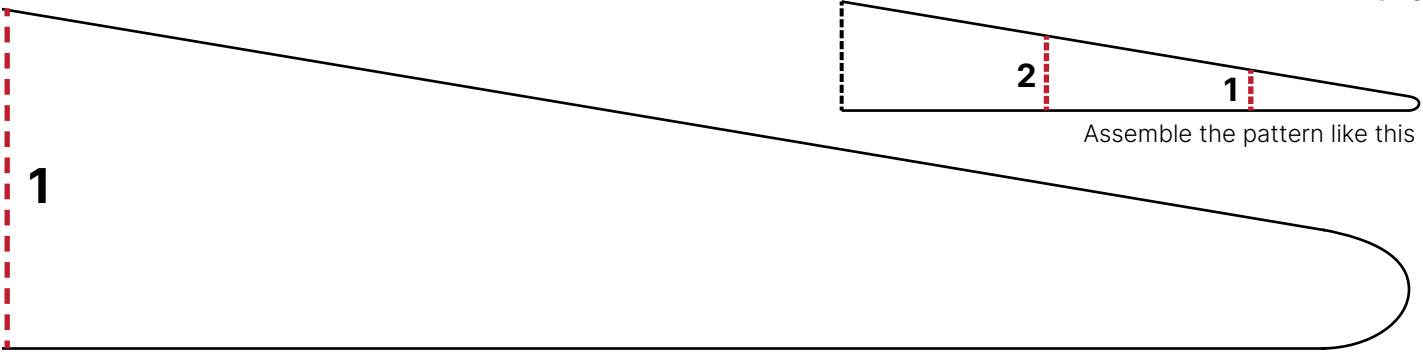

FREE  
DIY**Materials**

- Fabric approx. 30 × 130 cm (we recommend woven viscose, light cotton, muslin or similar)

1. Assemble the pattern at the red lines.
2. Cut 2 pieces of fabric according to the pattern
3. Sew the two pieces of fabric together with a 1 cm seam allowance. Leave a piece of approx. 8 cm left open, to turn through.
4. Cut the seam allowance to approx. 2 mm at the two pointed ends.
5. Turn right side out and pull the scarf into shape. Press the edges if necessary.
6. Sew a decorative stitch all the way around the edge. This closes the hole at the same time.

Assemble the pattern like this
