

## BEAUTIFUL HOME DECORATIONS

# PAP FAB ROSETTE

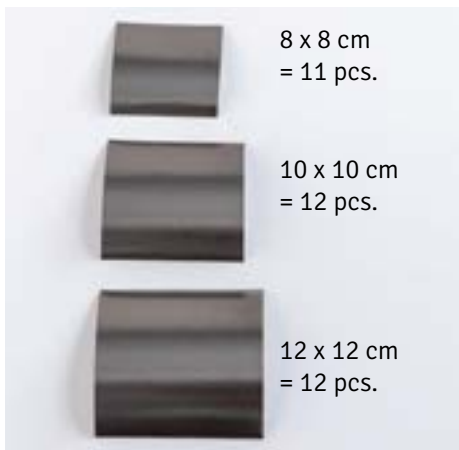

### MATERIALS

- PAP FAB, 1 roll
- Cutting board
- Patchwork ruler, 15 x 60 cm
- Scissors
- Glue gun, glue stick refills
- Pencil
- Utility knife
- Staple gun
- Rigid cardboard

**1.** Make sure you have everything you need. Cut a disc of rigid cardboard 24 cm in diameter.

**2.** Using a pencil, draw on the wrong side of the PAP FAB and then cut pieces of the sizes shown in the example. Cut out all the pieces.

*Hey! You can make a pretty rosette any size you wish. Hang up or place your rosettes on the table to decorate.*

#### Large rosette:

8 x 8 cm = 4 pcs.  
9 x 9 cm = 8 pcs.  
10 x 10 cm = 11 pcs.  
11 x 11 cm = 15 pcs.  
12 x 12 cm = 15 pcs.

Cardboard: Ø 27 cm

**3.** Fold each piece to form a cone. Staple each cone twice to secure. Fold each cone in the same direction.

**4.** First position the 12 x 12 cm cones evenly around the cardboard disc. The backs of the cones should face upwards. Glue on the cones using a glue gun. Continue with the next size of cones, etc. Tip: You can vary the number of rows and sizes, and directions of cones as you wish. You can use cardboard instead of PAP FAB.

**5.** Use the finished rosette as a pretty decoration in your home. Tip: You can also make a rosette in remnants of woven cotton fabric. Glue the fabric onto cardboard and cut out into squares to make cones.
