

PAP FAB CHRISTMAS ORNAMENTS

MATERIALS

- A piece of PAP FAB, 75 x 100 cm
- Sewing thread, gold
- Jewellery glue
- Bells & patch star
- String
- Stapler
- Ruler

FREE
DIY

1. Make sure you have everything you need.

2. Cut out 2 rectangular pieces of PAP FAB (12 x 28 cm). Fold each piece in half (2 cm fold width). Tip: Make marks (if any) with a pencil.

3. If you wish, cut a pattern into the folded edges.

4. Make 2 fans and staple them together on one side. Then bind the fans together in the middle with gold thread. Pull tight and knot firmly.

5. Fold out the fan to create a rosette. Staple the remaining sides together.

6. Affix the star using jewellery glue. Decorate the rosettes in different ways.

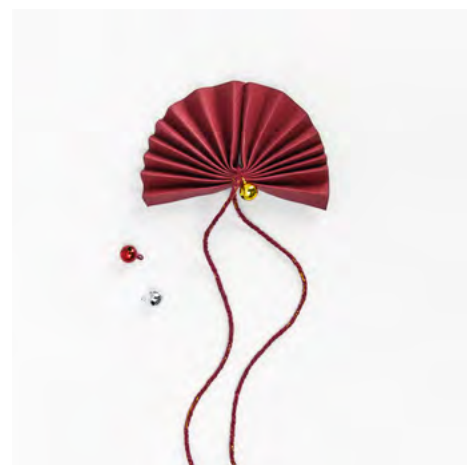

PAP FAB CHRISTMAS ORNAMENTS

7. Red or gold rosette: Cut a rectangular piece of PAP FAB (10 x 20 cm). Fold this piece (1 cm fold width). Tip: Make marks (if any) with a pencil.

8. Find the middle and fold one half to make a fan. Staple the sides together at both ends. Tie a string tightly around the middle of the folds to form a "half rosette". If you wish, tie a bell to the string.

9. Gold fan: Draw the fan and mark fold lines on the back of the PAP FAB. Cut out.

10. To make folding easier, scratch fold lines using a needle and a ruler.

11. Fold the fan. Make a hole for the string. You may need to use hole punch pliers or an awl.

12. Use PAP FAB ornaments on Christmas gifts and napkins, or hang them on the tree. Make in any colour you like.
