

MAKE AN EASY WREATH WITH A METAL RING

CHRISTMAS WREATH

MATERIALS

- Metal ring
- Ribbon
- Wire
- Gold thread
- Small ornaments
- Greenery

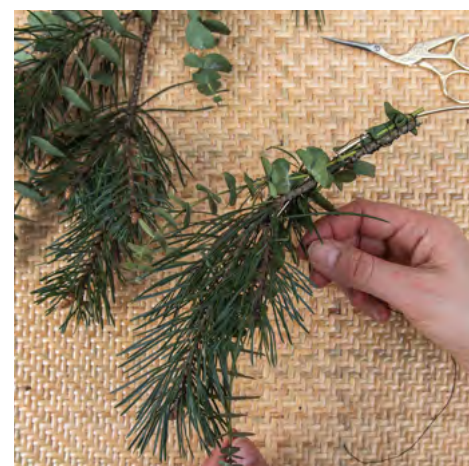

FREE
DIY

1. Make sure you have all the materials you need, including ornaments, e.g. crochet baubles.

2. Cut the greenery to approximately 15-20 cm in length.

3. First, bind steel wire 2-3 times around the ring. Then bind the first 2-3 branches firmly to the ring. Tighten and repeat several times.

4. Bind ornaments onto the ring with gold thread.

5. TIP: You could also make small pom-poms for your wreath.

6. Tie a ribbon bow to the ring. Use the same ribbon to hang the wreath.
