Roll out the clay, no thinner than 2 mm.

Place your little pieces of art on a baking tray lined with baking paper. Bake in oven at 130 °C for 20-30 min.

You can also wrap clay around an object that can withstand oven temperature 130 °C, i.e. glass or porcelain.

After baking, paint the items using textile paint. For a more transparent look, mix a little water into the paint before application.
