

Creative hobby for the whole family

Felt houses

Materials

- Felt: 3 mm thick
- Felt: 1.3 mm thick
- Marker pen
- Scissors
- Glue gun
- Haberdashery etc. for decoration: For example, pompoms (Happy + Julemix), ribbon fringe, ric-rac trim, decorative cord, bells, embroidery thread, embroidery needle

By the way...! Invite your family to a creative get-together. Everyone can make their own unique felt house.

1. Make sure you have everything you need. Feel free to use fabric remnants and all sorts of haberdashery. The sky's the limit! Print the template.

2. Cut out the templates. Draw the house on 3 mm felt, using a marker pen. Cut out.

3. Draw the door on 1.3 mm felt. Cut out. Attach firmly, using the glue gun. Decorate the house as you wish. You could, for example, embroider your motifs.

4. Draw and cut out various features for your house in 1.3 mm felt.

5. Glue ribbon fringe, pompoms, etc. on with a glue gun. Sew on cord and bells for hanging.

6. To conceal the back, cut a piece of 1.3 mm felt (use the house template) and glue it to the back.
