Sew it yourself: Christmas gift bag

Materials

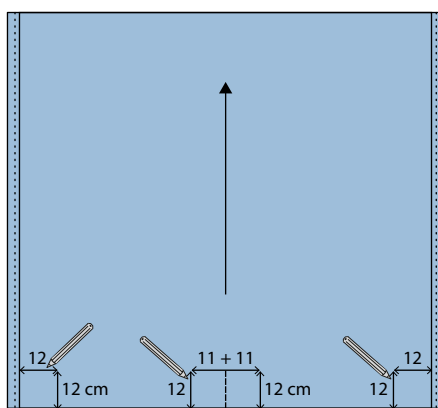

- 125 cm fabric
- Marker pen or chalk

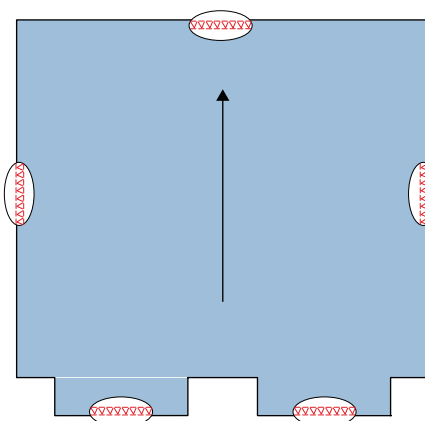

Pssst ... The size of the gift bag depends on the width of your fabric.

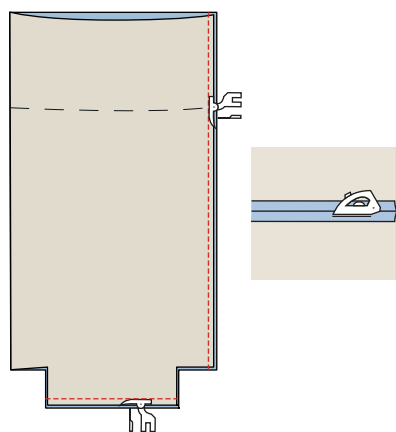

1. Measure your fabric width without the border. Draw side seams and mark the center with a marker or chalk as shown in the drawing.

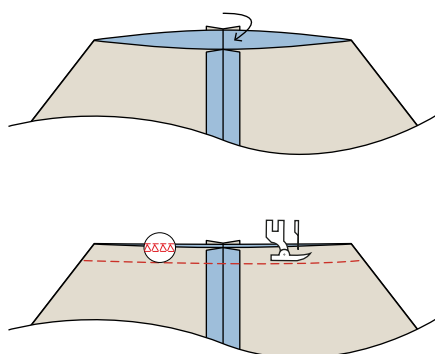

2. Draw lines as shown in the drawing.

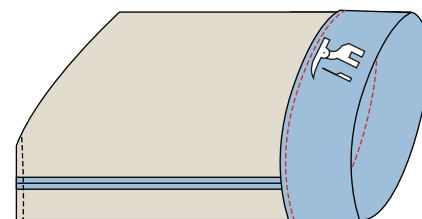

3. Cut out and overlock/zigzag side seams, bottom and top edge. Press the top edge 25 cm down towards the inside.

4. Sew side seam and bottom with 1 cm seam allowance. Press the seams open.

5. Fold the corners and sew. Overlock/zigzag seam.

6. Fold the top edge down where the press fold is and sew it in place. Turn right side out.
