

# Easter eggs with decoupage

## Materials

- Styrofoam egg (Item no. 39007)
- Glue (Item no. 29921)
- Brush (Item no. 29189)

1. Cut narrow strips of fabric, long enough so they can cover half the egg, measured from top to bottom.
2. Using a brush, apply glue to the egg and strip. Place the strip on the egg.
3. Repeat with the next strip, slightly overlapping each strip.
4. When your egg is fully covered, apply another thin coat of glue.

5. After the glue has dried, tie a ribbon around your egg.
