

BOLSTER CUSHION COVER

**MATERIALS:**

- Bolster cushion no. 38080002
- 65 cm of fabric
- 1 x invisible zip, 40 cm

INSTRUCTIONS:

- Cut a piece of fabric measuring 41.5 x 65 cm and two circles, each with a diameter of 22 cm, using the template (seam allowance included).
- Fold the square piece in half lengthwise and sew 2.5 cm in from both sides, leaving a space for the zip measuring 36.5 cm.
- Press the seams before sewing the zip. The zip is approx. 4 cm too long and must be shortened.
- Unzip the zip slightly. Sew across the zip a couple of times 3 cm from the end and cut so that only about 1 cm remains.
- Sew the circles together with right sides facing. Turn right side out and turn the seam allowance towards the square piece.
- Topstitch 0.5 cm from the edge.
- Insert the bolster cushion into the cover.
