

BEADED EARRINGS

MATERIALS

- Bead loom
- Small beads
- Treads in the same colour as the top beads
- Wire clamps
- Earring french

Below are 3 colour designs for the earrings, and an empty pattern for you to colour in yourself.

1. Start at the middle with plenty of tread.
2. Make the top end and secure.
3. Make the bottom end and secure, cut the piece off the loom.
4. Finish the top, place the earrings french and secure with wire clamps round the knot.
5. Make the fringes the wanted length and secure the end by pulling it through the bottom bead and up through the other beads.
