

HEADBAND WITH FLOWER

MATERIALS

- Satin ribbon 38 mm width
- Hair band
- Glue
- Needle and thread
- Ribbon tube

1. Cut 5 pieces of satin ribbon measuring 12 cm each and fuse the ends together using a lighter to keep them from fraying.

2. Begin by folding the satin ribbons as shown in pictures 2-4.

3. You may want to use a clip to keep them together while you fold the next one.

4.

5. Stitch them together approx. 0.3 from the bottom edge.

6. Complete the work by pulling the flower together by pulling at both ends of the thread and tying a knot.

7.

8. Cut approx. 38 cm ribbon tube and pull it onto the hair band. Fuse the ends together with a lighter and push them together to close around the hair band.

9. Complete the work by glueing the finished flower onto the hair band.

10. Tip: Use a clip while the glue is drying.
