

A GREAT IDEA FOR YOURSELF OR A FRIEND

# EARPLUG HOLDER

FREE  
DIY

## MATERIALER

- PAP FAB
- 1 stud button (44251)
- Optional decoration: glittery iron-on lettering and iron-on transfer remnants

1. Cut using the template, marking two spots to make holes for the stud button.
2. Cut holes. Make a small slit on one hole (see template).
3. Push the button back through the smaller hole and screw on the button front.
4. Fold the PAP FAB in half. Gently press the stud button through the larger hole to close.
5. To personalise, decorate your earplug holder as you wish. Here we used glittery lettering and iron-on transfers.
