

# Colour wizardry with paint

## Materials:

- Round or square box set
- Acrylic paint
- Pen
- Needle
- Measuring tape
- Seam gauge
- Foam brush
- Adhesive lacquer

*You can give these boxes any look you wish.  
Stripe them, check them, paint graphic lines.  
Unleash your creativity.*

**1.** How to make stripes.

**2.** Measure the circumference of your box and mark an even number of stripes (you decide on their width).

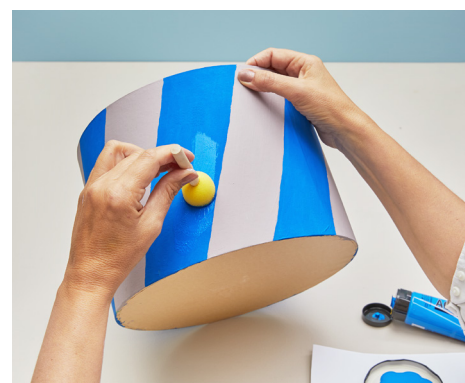

**3.** For best results, scratch your stripes with a needle and use our plastic seam gauge.

**4.** You can mix all kinds of colours from only five basis colours.

**5.** Then use our acrylic paint to make decorative stripes. Use a foam brush. Leave to dry and add a second layer for full coverage.

**6.** If you find the paint is too matte when dry, you can give the box a coat of adhesive lacquer with a foam brush. A layer of lacquer makes your box more resistant to knocks and bumps.
