

Stripes with stripes

We have beautiful striped fabrics that offer almost endless opportunities. Follow the guide to make a room divider. Make the craziest version in our new multicoloured BCI cotton item no. 780771 (which is, by the way, also makes great bed linen). You can sew cushion covers in upholstery velvet with oversized herringbone print. It's entirely up to you to combine the colours. Match stripes with stripes to create an inspirational space in your home.
